PROFESSIONAL SUMMARY

Enthusiastic Front-End Developer with 2 years of hands-on experience in a startup environment. Skilled in building responsive, user-centric interfaces using modern frameworks like React and Svelte. Ability to develop scalable, efficient solutions with a strong focus on performance, usability, and enhancing the overall user journey. My passion lies in solving real-word problems through web technologies.

WORK HISTORY

Mariyano Technologies Pvt Ltd
Karapakkam, Chennai

Junior Front-End Developer
03/2023 - Present

IT Services and Consulting

- Implemented user-friendly design enhancements with React.js, increasing app usability and reducing page load times, and cross-browser compatibility across platforms such as Chrome, Safari, Firefox and Edge.
- Built interactive and responsive front-end user interfaces for projects in domains such as healthcare, games, sports, betting application and religious organization.
- Strong grasp of React concepts including hooks, functional components, asynchronous programming and error handling for complex data scenarios.
- Integrated RESTful API's to manage dynamic data interactions between front-end and back-end system.
- Utilized Redux and Context API for efficient state management across large-scale applications.
- Developed and maintained both client and admin (CMS) features to deliver a seamless and consistent user experience.
- Actively collaborated with back-end developers and UI/UX designers to ensure technical accuracy, fulfill client requirements and maintain adherence to design specifications.
